STYLE & VISION PRINTABLE PACK

What would you choose, *just for you?*

These are invitations, not a test. Pick the questions that spark something. Quiet, familiar choices can be personal too.

What colour are you a little scared of, but absolutely love?

If nobody could judge the room, what would you try?

What slightly odd, playful or unexpected object makes you smile?

Which decorating "rule" would you be relieved to stop following?

What in your home looks right to other people, but does not feel like you?

What is one small, reversible way to test a braver idea?

> A tiny experiment counts: one cushion, a sample card, a moved chair or a borrowed lamp.
